# **Quantum Spoon Bending: A Model for Healing and Transformation with Gene Ang**

***\*Presence Healing Sessions Also Available\****

Learn to bend spoons using 6 different techniques based on quantum mechanics and torsion field physics. So why hold a spoon bending class? It is not only about bending spoons! The change in material reality demonstrated by the bent utensil is a model for change. The mechanisms used are all known healing techniques. Experience how to use these techniques in your own life for personal growth and transformation.

The principles demonstrated in this class access the same field of information as Quantum Mechanics and the Unified Field.

Participants (especially children!) have experienced first hand that techniques based on energy can soften the metal of spoons and forks so that they become miraculously malleable. In our classes, 85-95% of attendees succeed.

The utensils pictured here were twisted using new quantum healing techniques which clearly prove the ability of those techniques to alter physical reality. Not only are the results cool, but these same principles can be used for major shifts in healing and life issues.

Techniques will be taught using Time Travel, Collapsing the Wave, Dimensions, the Torus of the Heart, and Symbols.
